Dear Shirley,

I can confirm that EH's negotiations with S Hams DC have resulted in an acceptable degree of 'setting' being secured for the Scheduled Monument. We are awaiting an application for Scheduled Monument Consent for the works to repair the monument and to finalise the design details for the outfall supply from the immersion pool to the planned water features away from the SM. The plans for the garden in the vicinity of the monument are suitably low-key and pending formal SMC for the repair & outfall works we are content with the scheme overall.

Best wishes

Phil
